

A woman with short dark hair and bangs is shown in profile, looking upwards and to the left. She is wearing a black, sequined, one-shoulder dress. Her jewelry includes a large, multi-strand diamond bracelet on her right wrist, a diamond ring on her right ring finger, and a long, teardrop-shaped diamond earring. The background is dark, and the lighting highlights her face and the sparkle of the jewelry.

GEMS PAVILION

THE VIBRATION COLLECTION

With an aspiration to present the masterpieces that are crafted from creativity, high-quality materials and skilled craftsmanship, Gems Pavilion has come up with Gems Pavilion collection: The Vibration', a prestigious list of highlighted collections that share unique identities. This is to make sure that our collections are revealed, cherished and are seen in a new light.

GEMS PAVILION

THE VIBRATION COLLECTION

One of our collections is 'The Vibration' collection, which plays on graphic lines and geometric forms. Straight lines, diagonal lines and symmetrical elements are present in unity with the jewellery pieces' delicate forms.

The interaction between these elements creates a kind of vibration in the form of flowy waves on earrings, rings and bracelets in white and pink gold, decorated with pristine diamonds and gemstones. Despite the shared character, each piece in this collection is unique in its own way.

GEMS PAVILION

THE VIBRATION COLLECTION

Another special feature of The Vibration collection is that each piece of jewellery can be worn alone or altogether for every occasion, be it an understated look for work days or a glamorous evening look. At Gems Pavilion, we believe that every piece of jewellery has its own beauty, and beauty is a universal language that every woman can understand and use it to compliment themselves in every step of life.
